Comments and Remarks (use tab or mouse to advance to the next comment area)

1. Please comment on the pace and duration of the course.

I took the course online and as such was able to complete the course on my own time. The course took me longer than 63 hours to complete but I am a slow reader and made sure I fully understood concepts before moving on.

2. What would improve this course?

Video breakdowns for the sections requiring math.

3. What was the most positive aspect of your learning experience?

I really enjoyed the practice activities and summary reviews at the end of each chapter the most. They were a great way to reinforce learned materials.

4. What area requires the most improvement?

No comment
